Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

ENJOYABLE TIME HAD, CURLING CLUB DANCE

The Curling Club Dance, held in the Farmers' Exchange Hall last Thursday night, Nov. 10, was a well attended affair, and in spite of the cold evening, visitors from many parts of the country were present. About midnight a dainty and refreshing repast was served, the luncheon being donated by the various women of the town. The music for the evening was played by Mrs. Trainor's 4-piece orchestra of Calgary and one could not wish for better music, in fact it was so good that the Curling Club have engaged this orchestra to play at their dance, which will be held in the Farmers' Exchange Hall on December 1st.

VISIT OF ANGLICAN BISHOP OF THE DIOCESE OF CALGARY

A banquet will be held by the members of the Anglican church of Carbon in the Masonic Hall on Friday, Nov. 25th, in honor of the visit of the Rt. Rev. Ralph L. Sherman, D.D., Anglican Bishop of the Diocese of Calgary.

Any help from the ladies in the district of Carbon towards making the evening a success, will be most cordially received.

The banquet will commence at 6 o'clock and the admission is 75c a seat.

SCHOOL REPORT

GRADE XI—H. MacDonald 84, W. Edwards 80, A. Stephens 77, D. Nash 72, J. Bishop 71, A. Ramsay 67

LITTLE ITEMS OF LOCAL INTEREST

Preparations are under way for a humorous play entitled "Aaron Slick from Pumpkin Creek," which will be played in Hesketh on December 16th.

Mr. Arthur Rae has returned from inspecting his farm at Carbon Alta. He has been away about ten days and reports having hauled about 20,000 bushels as his share of the wheat grown on his farm. The weather was ideal for marketing grain.—Kitsilano Times.

Billy Edwards returned from Calgary on Tuesday and has completely recovered from his recent operation for appendicitis.

Work has again started on the new rink and we understand that 'carpenters' have been hired to go on with the work.

Mrs. Jim Hay and Cassy returned on Tuesday from Calgary.

Miss Marie English has resigned her position in Nash's store and left on Tuesday for Rockyford, where she will work on the telephone switch board.

Miss May Williams is proud of the fact that she was able to put a call through to Vancouver Sunday evening, in less than 25 minutes.

Mrs. Malton and Mrs. Willson went into Calgary Saturday morning on the bus. On Saturday evening Messrs. Malton and Willson motored into the city and on Sunday afternoon the party motored back to Carbon.

J.W. Baird left for the city on Sunday and expects to spend the next couple of weeks there.

Commencing last Thursday, the school session is called at 9.30 a.m. and at 1 p.m.

In order to have a little more time on the winter mornings the Sunday School session will begin at 12 o'clock. Will parents kindly assist in making this hour appropriate.

Mr. and Mrs. Gordon Harvey and Willie were visitors to Calgary on Saturday.

J.H. Oliphant had the misfortune to crush his thumb while working in the mine last Saturday. Dr. McFarlane operated on the injured hand and took the thumb off just above the joint.

W. Woods has leased his farm to Jas. Snell and expects to leave this Thursday for the coast.

McQuade, L. McEntire.

GRADE I Sr.—G. Bramley, B. Moore, M. Hesselgrave, R. LeMay, M. Shytha, L. Hall.

GRADE I—J. Rogers, M. Leitch, E. Fox, H. Wise, E. McKay, Z. Fairbairn, F. Poxon, J. Heath, C. Trumbley, J. Skerry, F. Snihur, M. Hunt, J. Kyle, E. Kaehn, J. Gouldie, I. Gouldie, D. Prowse, M. Moore, B. Rogers, G. McGregor, A. LeMay, I. Jacobs, L. Trepanier.

The Carbon Curling Club TENDERS

Tenders will be received by the undersigned up till noon Saturday November 19th for the position of care-taker for the Carbon Curling Rink. The initial flooding of the rink will be done by the Club but the care-taker will be expected to assist in this. The lowest or any tender not necessarily accepted.

Applications for the management of Carbon Skating Rink

Application will be received by the undersigned up until Saturday November 19th for the management of the Carbon Skating rink for the season 1927-28. The following are the terms on which the rink is to be taken over:

The manager to take all receipts, except on special Carnival nights, when 50 p.c. of receipts are to go to the Carbon Curling Club.

The manager to pay all operating expenses.

The Club will flood the rink the first time, but the manager is expected to superintend the same.

The maximum fees for skating are to be:

Single admission	Adults	25c
	Children under 12	15c
Season Tickets	Adults	\$3.00
	Children	\$2.00
	Family Ticket	\$6.00

Full particulars can be obtained from

R. J. FAIRBAIRN,
Sec.-Treas.

True Olive and R Barr returned on Tuesday after spending the past few days on a hunting trip to the foot hills. They were successful in bagging a young buck.

Harry Evans left last Friday for his home in Vancouver.

Dick Gimble and Jack Garrett left last Saturday and will motor to the coast.

Manufacturing In The West

The general impression of the prairie provinces of Canada held throughout the Eastern provinces and in other countries is that they are almost purely agricultural, and that manufacturing is practically negligible and, where carried on, is on a small scale and local in character. No doubt many Western people if asked for information on the subject would express much the same opinion. Nor would such a view have been very wide of the mark a comparatively few years ago.

Within recent years, however, a marked change has taken place, and manufacturing along many lines is now an important feature of Western activity. Not only is this the case but development along industrial lines is proceeding at a pace which is a surprise to people who take the trouble to investigate. The extent and rapidity of this growth is only realized when actual official statistics are studied and comparisons made from year to year.

The gathering and compilation of statistics of this kind is slow and laborious work, and considerable time must of necessity elapse before all returns from many industries are obtained and classified. Latest available figures, therefore, are always for a period of one or two years back. Recently the Dominion Bureau of Statistics issued a report on the manufacturing industries of the prairie provinces for the calendar year 1925, comparing them with the figures for 1924. The growth indicated in this twelve month period is quite remarkable and most encouraging.

For the year 1925 the number of manufacturing industries reporting was practically the same as for 1924, but the gratifying fact is disclosed that these industries substantially increased their capital, employed many more workers, largely increased their wage bills, utilized larger quantities of materials, produced many more millions of dollars worth of goods of all kinds, and operated on a much more profitable basis.

Capital invested in manufacturing industries in Manitoba, Saskatchewan and Alberta increased by \$14,000,000 during 1925, and at the end of that year amounted to \$221,775,000.

The number of employees increased by over 6,000 during the year with the result that no less than 27,178 people are now engaged in some form of manufacturing industry on the prairies. To these 27,178 people salaries and wages were paid aggregating \$12,827,000, or nearly eight million dollars more than in the preceding year.

Materials used by the several industries during 1925 had a value of \$141,892,000, or an increase of over \$21,500,000 over the preceding year.

Through the application of labor and the use of these materials, goods having a gross value of \$239,352,000 were produced, or an increase of \$35,541,000 over 1924. In other words, the prairie provinces in 1925 turned out on the average twenty million dollars worth of manufactured goods per month, or three million dollars per month more than in the preceding year. The net value of 1925 production was \$97,459,000, or \$14,000,000 greater than in 1924.

Analyzing these figures to some extent, it will be seen that manufacturing industry in the west, after paying \$21,500,000 more for materials, and \$8,000,000 more in salaries and wages, increased the net value of production in the one year by an amount equal to the total increase in the amount of capital invested. Certainly a most encouraging showing.

Those who are familiar with western conditions, and the decided improvement which has taken place within the last two years, know that the growth in western industry disclosed by these figures between 1924 and 1925 has been further accelerated between 1925 and 1927. Recent water power and other developments in all three prairie provinces, and the decided increase in interest both at home and abroad, in the natural resources of the West, give confidence that in a few years more the industrial activities of the prairies will be a factor of importance in the economic life of the whole Dominion.

Cut In Canada's Debt

Has Been Reduced \$78,500,000 In Seven Months Ending October 31

Canada's net debt dropped \$78,500,000 during the seven months of the fiscal year ending October 31. In the same period, when compared with the corresponding seven months of last year, total revenues of the Dominion increased nearly 20 millions.

Of the twenty millions, ten were in greater revenue from taxes.

Customs duties are up eight millions; income taxes, six millions; revenue from excise duties is up five millions, but revenue from excise taxes (sales, stamps, etc.) is down nine millions.

All advertising in "Constantia" except that in daily and weekly newspapers, has been taken over by the city, which will control it hereafter.

Pictures composed of small pieces of wall paper are a new fad in Europe.

Machine Could Be

Adapted To Cookery

Bakes Potato In Sixty Seconds and Cooks Steak In Thirty

Experiments are being made in London with a view to applying to rapid cookery the principle of the new diathermic electrical apparatus which is now used only medically for the treatment of pneumonia, rheumatism, arthritis and other rheumatic ailments.

It is claimed that recent tests show that the apparatus could bake a potato in 60 seconds, roast a steak in 30 seconds and fry an egg in two seconds.

The apparatus is considered especially adaptable to cookery because it introduces an intense internal heat.

First Rural Citizen—"Ain't ye ever goin' to take the trip to New York, Sir?"

Second Ditto—"Nope, I borrowed \$5 of a fellow once and he moved there."

May Broadcast Storm Warnings From Greenland

Messages Could Be Sent To Ships Two Days In Advance

From the summits of "Greenland's icy mountains," weather prophets soon may be able to broadcast to the world warning of coming storms which work havoc in the Atlantic ocean lanes and the temperate zones generally. This is the hope of Prof. William H. Hobbs, head of the University of Michigan scientific expedition who started for home aboard the Leviathan today after ten weeks studying the northern storms at the place of their beginning over the great ice gap of interior Greenland.

The expedition spent the summer at Kangdenlugssakfjord, within the Arctic circle.

"It is probably the longest fjord in the world and affords wonderful scenery on a majestic scale which has been seen by few white men," said Professor Hobbs.

The Hobbs expedition established three observation stations 100 miles apart, one of them being on the summit of Mount Evans. From the observations made at these stations it is planned to radio forecasts of coming storms over the north Atlantic 48 hours in advance of the storm arrival over the ocean lanes.

Selected members of the University of Michigan's expedition will winter in Greenland and will send out observation balloons with small lanterns for meteorological study. Two members of the party will spend the winter in a snow cave on the island ice for the purpose of making observations. Stakes have been placed and measurements taken for the study of glacier movements.

TOE UP THE BLOOD AND NERVES NOW

Dr. Williams' Pink Pills Have No Equal For This Purpose

Anaemia, or lack of good blood causes not only pale faces and white lips; it is the root of many pains and miseries. It is the cause of shattered nerves, headaches and backaches, and the always tired feeling from which so many women and girls suffer. To regain new health and strength the blood should be enriched through the tonic treatment with Dr. Williams' Pink Pills. This medicine has brought new health and strength to thousands of weak despondent people.

Among those who have found new health through the use of this medicine is Mrs. Gregory J. Murphy, East Ship Harbor, N.S., who says:—"I bless the day I heard of Dr. Williams' Pink Pills. Before I began their use I was in a run-down and very weak condition. The least exertion would leave me breathless and tired out. Housework was a trial, and at times I felt very despondent. A friend advised me to try Dr. Williams' Pink Pills and I got six boxes. I had not been taking the pills very long until I began to improve in health, and continuing their use they restored me to my former good health. I also gave the pills to my daughter, who was anaemic and run-down, with the same good results. Now I always have the pills in the house, and would not like to be without them."

Get a box of Dr. Williams' Pink Pills from your druggist today, or send 50 cents to The Dr. Williams Medicine Co., Brockville, Ont., and a box will be sent you post paid. A little book, "Building Up the Blood," which explains the treatment, will be sent free on request.

Have Abolished Death Penalty
The German province of Hesse has abolished the death penalty. Henceforth, when a Federal Court sentences any defendant in Hesse to death, the provincial minister of justice must commute the penalty to life imprisonment.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs infariously affected by the worms, and will encourage healthful operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

A new type of camera, with plates sensitive to light rays invisible to the human eye, can take pictures through cloud or fog.

The cannibal tree of Australia, like a giant pineapple in appearance, is credited with power to entrap and crush anyone touching its leaves.

Minard's Liniment for Neuritis.

W. N. U. 1707

ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Declaring War On Narcotics

Working Fund Of Five Million Dollars Urged At Conference

Formation of a world narcotic defence association with a working fund of five million dollars, was urged at the first session of the conference of committees of the World Conference on Narcotic Education and the International Narcotic Educational Association at New York.

The association would be non-profit making and would have the power to utilize "all honorable means to attain the mobilization of the resources and vitality of society everywhere against narcotic drug addiction and to acquire and maintain immunity from this universal race menace."

Two million dollars of the five million to be sought, Captain Hobson explained, would be used in hospital work; another two millions used in educational work, while the remaining million would be set aside for law activity.

"Rastus, your dog seems to be in pain."

"No, such—he ain't in pain; he's just lazy."

"But he must be suffering or he wouldn't howl like that."

"Jes' plumb lazy; jes' laziness; he's settin' on a thistle."

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Record Of Stunt Airman

Flying upside down from Cologne to Bonn, a distance of twenty miles, in a biplane, is the record of Herr Fleesler, the German "stunt" airman. He was escorted all the way by a pilot in a second plane.

To Control Canadian Thistle

Possibly one of the easiest and surest methods of controlling Canada thistle is to put the land where possible into alfalfa. The frequent cutting of alfalfa and thistle tops over a period of years will starve the thistle root and result in complete eradication of this very undesirable perennial weed.

Short of Breath Dizzy, Sinking Spells COULDN'T WALK FAR

Mrs. L. A. Oliver, Granville Ferry, N.S., writes:—"A few years ago I had dizzy, sinking spells so bad I could hardly stand up without taking hold of something to support me, and I could not walk any distance on account of being so short of breath. I had taken a lot of doctor's medicine, but it did me no good, only for the time being, so reading in the B.B.B. almanac about

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Increase In Air Mail

Colonel Chas. A. Lindbergh's flight to Paris last May so stimulated public confidence in aviation that since then the United States air mail poundage has increased over fifty per cent. William P. McCracken, assistant secretary of commerce for aviation, says.

For all pains—Minard's Liniment.

Women are a puzzle problem. The men can't get along with them, or without them; and yet are not content to leave them alone.

SWALWELL ITEMS OF LOCAL INTEREST

Mr. and Mrs. Geo. Chatten motored out from Calgary on Saturday after spending a few days in the City.

In spite of the adverse weather conditions threshing is still in progress in our vicinity, but the grain being threshed is generally grading tough. However tough grain in the elevator is better than any grade under a foot of snow all winter.

The Ladies' Aid met last week at the home of Mrs. Clarke. This was the first meeting after the chicken supper, and the end of the fiscal year and there was a good attendance. In the absence of the president, the chair was taken by Mrs. Kletskey.

The Altar Guild of the R. C. church is holding a sale of home cooking and afternoon tea on Saturday, Nov. 19, in the rest room of the U.F.W.A. This should be of special interest to the many bachelors of our district.

Readers are asked to bear in mind that Chautauqua dates for Swalwell are Nov. 26-28-29-30. The committee are assured of a better program than ever this year. There are to be two dramatic numbers, one on the first night, which is a comedy and entitled 'The Bubble.' The other to be played on the last night when the Martin Erwin Co. presents 'Cappy Ricks.' Another Star turn is the Jubilee quartette with an exceptional program of Negro spirituals and old plantation melodies. Other items include the Faubel Entertainers, Louise McIntyre in a lecture 'How's your Health' and a demonstrated lecture 'The Potter and the Clay' by J. Smith Damron.

Apple Sauce

Rastus (at dance): Mirandy, is yo program full?

Mirandy: Lawdy, no! It takes mo' dan two sandwiches and a cup of coffee to fill mah program.

The poor fellow had an unfortunate lisp. He was out with a girl. He murmured: I love to thee a girl thigh. And she slapped him.

"Lips that touch liquor shall never touch mine," said the old fashioned girl. But the modern flapper says, "whataya got on your hip, old scout. I'm dryer'n a cat fish."

A man never realizes the superiority of a woman so much as when he is trying to sew on a button without a thimble, pushing the needle against the wall to get it half way through and pulling it through the other half by hanging on to it with his teeth.

OVER 17 MILLION JARS USED YEARLY

WORLD HAPPENINGS BRIEFLY TOLD

The Japanese cabinet has decided to cease positive encouragement of emigration. Hereafter the government will confine its efforts to emigrants already abroad.

The United States has more military pensioners in Canada than in every other foreign country put together. There are 1,122 residents of Canada at present drawing pension from the United States treasury. They receive a total of \$601,889 a year.

Two interesting parcels of freight have left Vancouver port, being cargoes of lead in each case, one for Central America and the other for Buenos Aires—both destined for the same use, that of making arsenate of lead for the combatting of insect pests.

Major Mario de Bernardi, Italian flying ace, attained a speed of more than 300 miles an hour in his hydro aeroplane test on the Venice Lido course, smashing all existing records for speed in the test, the Royal Aero Club of Italy stated.

Tom Moore, president of the Trades and Labor Congress of Canada, has returned to Ottawa from Berlin, where he attended the meeting of the governing body of the International Labor office attached to the League of Nations.

The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or constipation, or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

Children Cry for

CASTORIA

W. N. U. 1707

Claims New Device Will Eliminate Static

"Monophone" Is Invention Of Retired U.S. Army Officer

Announcement that he has perfected the "monophone," an instrument designed to carry radio into the home over the telephone or electric light wires, was made by Major-General George O. Squier, retired former chief signal officer of the U.S. army. The general claims the device will eliminate static, add the radio commission by clearing wave bands and provide a double use for power and telephone lines now in operation.

The device is virtually a three tube receiving set without dials, "stepping up" attachments, batteries or amplifiers. According to General Squier, it would utilize the same lines that now supply current to homes for ironing and lighting without interfering with their present purpose.

The monophone would be connected only to the station or "net" operated or used by the companies leasing the instrument. Buttons would control the instrument for frequencies and there would be no dials to change stations.

Removes Touchy Corns, Brings Solid Comfort

Acts like magic—takes out all the pain—makes aching corns feel comfy in a few seconds. That's how Putnam's Corn Extractor acts. You will not be disappointed with "Putnam's"—it never fails to lift out corns, or remove painful callouses. Get "Putnam's Extractor" from your druggist, for use a substitute.

Winnipeg Newspaper Union

The Baby's First Short Clothes

When baby is ready for short clothes mother will be happy to find this combination pattern, No. 1174, which contains a short coat, with or without cape, short jacket and bonnet. Just everything for "bye-bye" land. The simple coat is made with a yoke, that always adds a little graceful touch to the straight line. The round collar gives a tailored finish and is cut for comfort. The cape adds warmth for the cool days. It may be sewed in one seam with the collar to the coat, or made and used separately. For the cool days and warm evenings, when just some light wrap is wanted, the simple little jacket with set-in sleeves will quite answer every need. The bonnet, with a rever that is becoming to every baby face, fits nicely by the use of small plaits at the neck-line. Cut in one size, and requires 2 1/2 yards for the entire outfit. Price 20c the pattern.

Question: Why do growing children, particularly girls, need emulsified cod-liver oil?

Answer: Growing children, and particularly girls, need vitamin-rich nourishment to help them through critical stages of extreme tax on their strength.

Pleasantly flavored, easy to take, children like

SCOTT'S EMULSION

Travelled First Class

Apes Taken From Nice To Vienna To Be Used In Clinic

Eleven anthropoid apes, travelling as first-class passengers, have arrived at Vienna from Nice on the Simplon Orient Express. Each was accompanied by a special attendant and seemed to enjoy the luxury of travel on Europe's crack express. The contentment of the apes was short-lived, however, for they were taken to the clinic of Dr. Serge Voronoff. There they will submit to a painful gland operation in order to restore the buoyancy of youth to octogenarian Austrians who wish to add another spell of years to their lives.

MADE HER BABY PLUMP AND WELL

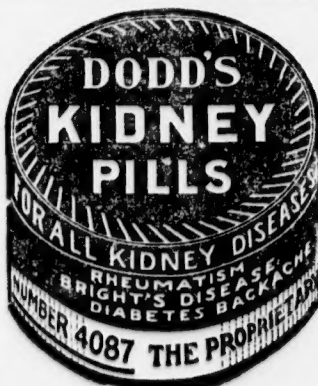

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zepherin Laviole, Three Rivers, Que., writes:—"Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels, and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Railway Extension In Peace River
Inaugurating the first freight and passenger service over the newly completed Pembina Valley Railway, the branch line of the E.D. & E.C. from Bushy to Barrhead, Alberta, Peace River District, a distance of 26 miles, the first mixed train left Edmonton recently.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Unearth Old Water System

A water system in perfect order and capable of carrying a daily flow of 300,000 gallons, believed to have been built by Genoese colonists eight hundred years ago, was recently uncovered by workmen at Alushta, Crimea.

SUNDAY SCHOOL LESSON

NOVEMBER 20

MICAH CHAMPIONS THE OPPRESSED

Golden Text: "He hath showed thee, O man, what is good; and what doth Jehovah require of thee but to do justly, and to love kindness, and to walk humbly with thy God?"—Micah 6.8.

Lesson: Micah, chapters 2, 3, 6 and 7.1-6.

Devotional Reading: James 1.23-27.

Explanations and Comments

I. The Creed of the Wealthy and Their Punishment, 2.1-3.—"Woe to them that devise iniquity and work evil upon their beds!" cries the prophet. "When the morning is light, they practice it, because it is in the power of their hand." Micah is here arraignment of the wealthy classes. He charges them with lying awake at nights to plan and plot evil—how to get the better of the poor—and with carrying out their schemes when daylight comes, because they had the power. They believed that might makes right. "They covet fields, and seize them (as Ahab did Naboth's vineyard); and houses and take them away; and they oppress a man and his house, even a man and his heritage." "The prophet does not detail the steps of the process of seizure—through foreclosure of mortgages, usurious rates of interest, bribery of judges, and the like. No legal procedure can make right in Micah's eyes the fact that his poor neighbors are being ousted from their homesteads by the grasping rich; compare 1 Kings 21; Hosea 5.10; Isaiah 5.8."—J. M. P. Smith.

"Therefore thus saith Jehovah," solemnly the prophet asserted: "Behold, against this family (the whole family of Israel) do I devise an evil." While they were devising evil, verse 1, Jehovah was devising a punishment, the prophet declares, and punishment from which there would be no escape. "For it is an evil time," the time was evil, for men were living as if God were not, and evil was threatening in the Assyrians who were advancing victoriously westward.

"They devise iniquity against their fellows; but Jehovah devises evil against them. This is ever so, and the evil which God devises against the devising of iniquity, is ever the outworking of that very iniquity in its reaction upon the evil workers. There is no escape from God, and that fact is the reason of confidence, and the secret of peace, in the days most full of the apparent triumph of evil men."—G. Campbell Morgan.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

South Africa Proud Of Aviator's Feat

Bentley Made Solo Flight Of 8,100 Miles In Tiny Moth Plane

When brought into comparison with some of the epoch-making flights to the credit of Lindbergh and other aviators, the significance of the record-breaking flight from London, which has ended at Cape Town, is apt to be lost by the thrill-loving public.

A wildly enthusiastic welcome at Wynburg airdrome, Cape Town, marked the culmination of an 8,100-mile solo trip over sea, desert and the forests of Darkest Africa, made by an intrepid little South African aviator named Lieutenant Bentley on a tiny Moth aeroplane provided for his use through the enterprise of The Star, a Johannesburg evening newspaper.

A particularly notable feature of this lone flight on a machine with a motor of only 40 horsepower is that it was completed in twenty-eight days, whereas Sir Pierre van Ryneveld, who blazed a pioneer trail from Cairo to the Cape in 1920 (and used two machines in his effort), took forty-four days to reach his goal, while Sir Alan Cobham's flight in 1925 occupied ninety-four days.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

Has Horn Between Antlers

Some curious prank of nature has given one of the deer in Yosemite national park a horn like rhinoceros. The freak growth projects through the roof of its upper jaw half way between the nose and the eye. The deer is very tame, but disappears once a year to shed both his antlers and the strange middle horn.

Guayaquil, Ecuador, which in 1918 was considered one of the worst yellow fever spots in the world, has not had a case of the dread disease since 1919, when scientists from the United States introduced methods of elimination.

THE EGOTIST

The man who can see no good in his fellow-man ought to fall off this earth and go to his place. There is no guess about where he ought to be and where he will go when he leaves here. The milk of human kindness has soured in him, his better nature has been perverted, his eyes inverted and his whole moral being turned away. He has lost confidence in men, has no respect for women, looks on God as a tyrant and death as an escape from thralldom. He is too coward-

ly to destroy himself, too abject to be honorable, too small intellectually to bother about the weightier problems of life, too contemptible to be noticed and too apt to live out all his days. Such men may be classed the "gad flies of life," calculated to annoy their betters, ferment strife, ruin discord and bring misery on mankind.

"Oh, what a cute little dolly! Does she say 'mamma' when you squeeze her?"

Naw! My dolly's a modern doll; when you squeeze her she says: Oh, boy!

Lecturer: Can anyone give the derivation of the word auditorium?

Listener: yes, from audio—hear, and taurus—bull. a place where you—

Lecturer: That will do.

A new clerk was due at the office and the typist asked the Scottish secretary of the company whether she should buy another inkpot in anticipation.

Och, no, replied the Scot. Just wait till he comes. Maybe he'll use a fountain pen.

You've got an awful big mouth, haven't you ma?

Why no, dear, why do you ask?

'Cause I heard pa telling a young lady last night that you swallowed everything.

CANADIAN PACIFIC

Canadian Buyers Profit by Canada's Export Trade

IN the distant reaches of Britain's far-flung empire you will find General Motors cars, built in Canada by Canadian craftsmen, from Canadian materials.

In five years over 110,000 automobiles have been sent overseas by General Motors of Canada to carry the standard of Canadian quality around the world.

This represents a truly important contribution to Canada's export trade.

It represents millions of dollars to be spent in wages to Canadian workmen, in the purchase of Canadian metals, wood, hides and

the countless other materials entering into the manufacture of General Motors cars.

And it represents a greatly augmented production of General Motors of Canada, resulting in lower costs of manufacture, in economies of purchasing, in greater savings of time and labor through greater volume.

Thus, because in India, in Egypt, in Malta, Ceylon or South Africa, someone is buying a General Motors car from Canada, General Motors can offer to you, in Canada, a product of higher quality at a lower price than otherwise possible.

CUSTOMS PROBE IS REOPENED IN THE EAST

Ottawa.—Customs appraisers whose duty it is to place a value on goods imported into the Dominion sometimes make mistakes. Before the customs royal commission, which resumed sitting here, R. L. Calder, K.C., one of the commission counsel, stated that an importation of very valuable antique furniture entering the port of Montreal had been appraised as "second-hand furniture and rated as such" by the appraiser through whose hands it passed. Evidence taken before the parliamentary committee last session had shown that some of the appraisers were absolutely without qualifications for their work, Mr. Calder said.

Counsel mentioned these matters when J. A. Watson, Dominion appraiser, was on the witness stand before the commission. Both Mr. Watson and his assistant, Edward Richards, informed the commission that they were not consulted in any way officially as to the choice of appraisers for the posts of customs appraisers at points outside Ottawa. Customs appraisers generally became such by promotion, Mr. Richards thought, but he and Mr. Watson agreed that the civil service commission was the body which would probably tell the commission about the matter.

Resumption of the hearing this morning was prefaced with an expression of regret from Chairman J. T. Brown that Sir Francois Lemieux had retired from the chairmanship of the commission. It was announced that after the Ottawa sitting, the commission will proceed to Vancouver.

A statement was submitted covering the number of train seizures at various points in Canada from 1923 to date. The largest number was made at Windsor, Ont., numbering 465. Next came St. John's, Que., 371; Montreal, 256; Vancouver, 237. Mr. Rowell explained that these were made from trains, which accounted for the large number made at some comparatively small places.

London Firm Insures Turkish Cruiser

Is Ship That Decided Turkey to Join Germany in War

London.—There is a flavor of irony in the fact, says The Daily Mail, that insurance of about \$5,000,000 has been placed with Lloyds, London, against risks of damage to the Turkish cruiser Sultan Yavuz Selim, formerly the German Goeben, which is being lifted into dock at Goldjok, near Constantinople, for repairs by German engineers. Early in the war, the Goeben, then belonging to Germany, arrived in Constantinople after a spectacular escape from British pursuers in the Mediterranean. The arrival of the Goeben through the Dardanelles was one of the factors leading Turkey to join Germany instead of the allies in the war.

Northern Branch Line May Be Extended

Would Form Junction in Manitoba With H. B. Railway

Winnipeg.—Extension of the Canadian National branch line at Gypsumville, Man., to Grand Rapids, on the Saskatchewan River, was promised by Sir Henry Thornton on condition that the undertaking can be shown to be profitable, according to a delegation that waited on the C.N.R. president here.

The proposed extension would form a junction with the Hudson's Bay Railway. The delegation was composed of Mayor R. H. Webb, of Winnipeg, representative of the On-to-the-Bay Association and officials of other Manitoba organizations.

Report On Land Settlement

London.—A lengthy report on land settlement is in the course of preparation by the Overseas Settlement committee of the Imperial conference. The report reviews the situations throughout the Empire and the steps taken by the different Dominions in connection with migration.

W. N. C. 1656

West Captures Prizes

Championships Won in Competition With Best Cattle on American Continent

Toronto.—Stepping out in international company representing the cream of the cattle on the American continent, five head of Saskatchewan cattle won two championships, two firsts, one third, one fourth and one fifth prize at the Royal Winter Fair here today.

Two Aberdeen Angus calves, shown by W. J. E. Warren, Belbeck, scored a triumph for their owner, "Black Monarch," 11-month-old bull calf, captured first place in the junior championship and reserve grand championship in succession, while "Miss Quality of Belbeck" gained exactly similar honors in the female Aberdeen Angus classes for Mr. Warren.

G. K. Allonby, Crossfield, Alta., walked off with the junior bull championship in dual purpose Shorthorns as well as the reserve grand championship.

Alberta made a killing in the Herefords, O. A. Boggs, Daysland, taking the male and female grand championships and both the senior championships, while Frank Collicutt, Crossfield, won the junior bull and reserve senior championships in female classes. These two men made a clean-up in the Hereford classes, capturing, in addition to championship ribbons, several premier and other prizes.

H. Hyslop and Son, Killarney, Man., also made a good showing in Herefords.

France Planning To Cut Standing Army

Bills Call for Reduction From 650,000 to 400,000 Men

Paris.—Reduction of the total number of men under arms in France from 650,000 to 400,000 is called for in three bills which will be introduced in the Chamber of Deputies. The measures also call for a reduction in the period of compulsory military service from eighteen to twelve months.

The bills, which will be introduced by Minister of War Painleve, provide for the calling of conscripts at the age of 21 instead of at 20 and for the recruiting of volunteers numbering more than 100,000. The volunteers will relieve the conscripts from "fatigue details." Under this system the young soldiers will devote their entire year's training to purely military instruction.

The contingents of conscripts will be called up in half yearly sections in order to insure the presence under the flag of half the entire army with at least six months' training.

M. Painleve estimates that the new law will increase the expenditures of the War Department at the beginning, but he proposes to make up the additional sums needed from the sale and rental of idle property of the Department of War.

Young People Protest

Youth of Ontario Say They Are Progressing Along the Right Lines

Toronto.—A resolution repudiating "the propaganda carried on by those interested in the return of the free sale of liquor which has represented the young people of this province in most unfortunate terms," and calling for wholehearted support of the Ontario Temperance Act, were the tangible results of three meetings held here which 7,000 young people from Toronto and district attended.

Passing of the resolution followed addresses by several young men and women prominent in university and other circles in Toronto. At each meeting the speakers stressed the contention that young people were not going to the "how-wow," as some people thought but were progressing along the right lines.

Conference Is Success

London.—"The Imperial Conference has not been doing much to attract publicity," said Lt.-Col. L. C. Amery, secretary of state for Dominion Affairs, in a speech here, "but from the point of view of mutual understanding it has been the most successful of all the Imperial conferences." Colonel Amery said he thought the amount of practical work accomplished by the various committees of the conference was greater than at any previous gathering of the premiers of the Empire.

PREMIERS ARE SHOWN BRITAIN'S LARGEST AIRSHIP

London.—The Dominion Premiers at Cardington inspected the structure of the new airship which is to bring Canada within two and a half days of London, as referred to by Sir Samuel Hoare, head of the British air ministry, at the Imperial Conference about three weeks ago.

The structural work on the ship so far has only advanced sufficiently to give an idea of its immense size. Nearby was R33, the military airship which flew above the German fleet when it surrendered on the conclusion of the armistice. Great as the R33 appeared it could pass within the framework of R101, the airship now under construction.

The R101, with a sister ship, will have accommodation for 100 passengers each and their baggage and 10 tons of mail matter. They will each have sleeping cabins of two or four berths, promenade decks, lounges, smoking rooms and dining rooms capable of seating 50 people at one time.

For the benefit of the visitors, R33 was taken from its shed and it made an ascent.

Premier Mackenzie King has already indicated the intention of the Canadian Government to proceed with the erection of a mooring mast in Canada for the reception of airships.

Airplanes Come To Aid Of Passengers

Drop Food For People Stranded on Desert Near Bagdad

London.—Pilots of the Royal Air Force have been engaged in dropping dates and other foods for stranded passengers in the cross-desert motor car service between Beirut and Bagdad, says a despatch to The Daily Mail from Bagdad. The distance of the cross-desert route is nearly 600 miles.

Many cars have been stuck fast for more than seven days in a sea of mud caused by an exceptional rainfall. The Basra-Bagdad Railroad has been washed out at several places and a number of houses in Bagdad have collapsed.

B.C. Chooses Rhodes Scholar

Vancouver.—Albert E. Grauer, 20, a '25 graduate of the University of British Columbia, who is now attending the University of California, was chosen as British Columbia's Rhodes Scholar to take up residence at Oxford University in October, 1927, by the selection committee for this province. Grauer was a member of the U.B.C. basketball team which participated in the finals for the Canadian championship at Ottawa.

He'd Rather Dodge a Bear Than a Motor

Col. Moore giving advice on a mountain journey to a fair visitor at Banff.

An encounter with a grizzly in the heart of the Canadian Pacific Rockies is a tame experience compared with dodging through traffic in Montreal, according to Col. Phil A. Moore, pioneer guide of Banff, Alberta, who arrived at Windsor Station, Montreal, over C.P.R. lines recently.

But of course, Col. Moore feels differently about bears and other wild animals than most people do. He knows them intimately, and has made a careful study of their habits and dis-

To Ratify G.T.P. Payment

Will Bring Down Legislation to Give Effect to Arrangement

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, announced that it is the intention of the federal government to bring down legislation at the December session of Parliament to give effect to the arrangement which was reached in London in September last by representatives of the Canadian National Railways and the holders of Grand Trunk Pacific four per cent debenture stock, over the payment of interest. There has been difficulty and dispute since the Grand Trunk Pacific was thrown into receivership in 1919 by the action of the former management. Advances received from London indicate that already the holders of more than 84 per cent of the issue outstanding have accepted the arrangements. On this side, the scheme of arrangement requires to be ratified by Parliament.

No British Envoys Will Be Appointed

Government Not Likely to Send Ministers to Dominions

Ottawa.—A cabled press report from London intimating that the British Government may appoint ministers in each of the Dominions is not accepted here in Government circles as at all likely. It is understood that in the official despatches reaching this country from the conference there has been no indication of such a step and it is thought to be doubtful if any such plan has been entertained. A further report saying that the Prime Ministers of the Dominions have declined to participate in the Locarno pact is not regarded as official. Premier Bruce of Australia recently stated publicly that he was in favor of the adoption of the Locarno agreement by the Commonwealth.

Will Not Enforce Restrictions

United States Will Not Ban Workers From Crossing Line

Washington.—Officials of the Department of Labor, which has control over immigration matters stated that while restrictions on persons who live in Canada and cross the border daily to work in the United States will be gradually tightened, no wholesale action is contemplated.

Immigration officials realize that enforcement of any such policy would cause strong protest, not only from Canadian workers but from some United States citizens who live across the border.

Lady Willingdon Heads Red Cross

Toronto.—Following a visit by Viscountess Willingdon to the Red Cross national and provincial offices, it was announced that Sir Robert Borden is retiring as president of the Canadian Red Cross Society and that her excellency has accepted the office.

THE STATUS OF DOMINIONS TO BE DETERMINED

London.—In connection with discussions by the Imperial Conference committee on inter-Empire relations there is a proposal to widen the powers of the high commissioners of the various Dominions and give them semi-diplomatic functions. So far, however, the matter is in abeyance.

The conference resolution with reference to the Locarno treaties as previously indicated will be confined it is expected, to an expression of appreciation of the Locarno spirit and the work done by Sir Austen Chamberlain, foreign secretary, in promoting peace in Europe, but it will not imply acceptance of the treaties by the Dominions. On this point, it is understood there has been a division of opinion among the Dominion delegates, while the resolution calling for the formal adhesion of the Dominions to the treaties is not being pressed.

The proposed statement on the constitution of the Empire, on which the premiers' committee of inter-Empire relations has been working, is now taking definite shape. The statement, it is believed, will do the following:

1—Define more clearly than at present the status of the Dominions in the Empire.

2—Recognize Dominion autonomy, not only in purely domestic matters but also in questions of foreign policy primarily concerning such Dominion.

The premiers' committee of the Imperial Conference has not yet concluded its work, and some changes may yet be made in the statement outlined above.

Among the Canadian delegation there was evident a feeling of satisfaction at the way things are progressing at the Imperial Conference. "We have every reason to be pleased," said one influential member of the delegation. "We did not, of course, get everything we should like but we made a greater advance even than we expected."

Says Canada Is Prosperous

President of Canadian Bankers' Association Reviews Financial Situation

Montreal.—A comprehensive review of the business and financial situation in this country the past year, and the factors leading to the general improvement which has taken place were contained in the address by C. E. Neill, president of the Canadian Bankers' Association and general manager of the Royal Bank of Canada, who told a tale of prosperity at the annual general meeting of that body held in Montreal. Mr. Neill stated that the wave of prosperity was reflected in a pronounced improvement in the banking situation in the Dominion and also dealt at some length with the return of this country to the gold standard, which was accomplished without any stress or strain whatsoever.

Not in agriculture alone is found evidence of Canada's prosperity, stated Mr. Neill, who added that railroad earnings are satisfactory, building was most active during the past year, newspaper production has exceeded that of the United States, automobile production and export were at record level and that generally various lines of manufacture show satisfactory growth.

Union Jack Painted On British Vessels

Plan to Protect Ships Plying in Chinese Waters

Shanghai.—In an effort to prevent their being attacked by the Chinese militarist along the Yangtse river, many British vessels plying in Chinese waters are having the Union Jack painted on their sides. Shippers hope this will make firing on them or commandeering them inexcusable. The seamen's strike is reported to have been completely beaten. All strikers have been summarily dismissed and new crews employed.

Toronto.—A special Washington dispatch in the Toronto Globe says: "The status of Sir Hugh Denison, Australian high commissioner to the United States is to be changed to that of minister within three months time, according to information gained in an authoritative quarter."

TO STRENGTHEN LIQUOR LAWS OF PROVINCES

Ottawa.—Very important intimations, bearing upon the question of the import and export of liquor, were made during the progress of the discussion on the question at a sitting of the Dominion Provincial Conference.

The provinces were unanimous in their request for control of the importation of liquor, both where there are liquor control boards and also where there is legal prohibition. Likewise, there was unanimity in demands for a curbing of the operation of liquor export houses.

The announcement, which came from the Federal Government representatives, was that the bill, confining to the provinces the right to import liquor, will be re-introduced. Twice already this has been killed by the Senate.

As regards export houses, the undertaking is given that, where any province so desires, customs bonding privileges will be denied such establishments. Any such policy, if adopted on provincial initiative will put a very large crimp in the operation of export houses to which are attributed many of the abuses which have arisen in the liquor traffic.

Another proposal of the provinces was for the reduction in the excise duties on liquor. The Minister of Finance declared that the demand for increased subsidies was not quite in consonance with the demand for lower excise duties, but stated that the Government was willing to listen to reason.

There was discussion on judges and a majority of the speakers favored higher salaries and uniformity in retirement of judges but little attention was paid to the question of age, it being pointed out that some of the oldest judges were the most efficient.

Allowed Wave Bands For Directing Aircraft

Canada's Right To Exclusive Bands Recognized By Radio Conference

Washington.—Canada's right to exclusive wave bands for the direction of aircraft in the Dominion, has been recognized by the International Radio Conference, and a wide band, sufficient to take care of extensive development of commercial flying in Canada has been set aside for the sole use of Canada.

When the question of communication between aircraft and ground stations was under discussion in committee, the Canadian delegates brought up the necessity for the recognition of the needs of aircraft in the Dominion. It was pointed out that in practical application of aircraft to forest protection, survey work and similar useful purposes, Canada led the world. The necessity for a clear band through which aircraft could communicate regularly with ground stations, was recognized as it had been previously recognized in Europe.

"With the additional facilities," a Canadian delegate told the Canadian Press today, "it will be possible to provide not only for the very extensive forest protection operations in the various provinces, but also for all kinds of commercial aircraft enterprises."

Mountie Is Promoted

Ottawa.—Staff Sergeant A. H. Roy, renowned Arctic traveller of the Canadian Mounted Police force, has been promoted to the rank of inspector, according to an announcement made here. While in charge of a detachment at Pond's Inlet, he conducted the preliminary proceedings in the celebrated James case, in which British law was enforced in the Arctic.

Desires To Abandon Flight

Berlin.—The Foreign Office has been advised by the German consul-general at Calcutta, India, that Otto Koennicke, who set out to fly to the U.S. by way of the Orient, is ill and penniless and desires to abandon his plane and return home. The Foreign Office understands this marks the end of the ill-fated attempt.

W. N. U. 1797

Niagara Post Office Damaged By Fire

Building Practically Wrecked By Explosion In Furnaces

Niagara Falls, Ont. — Damage amounting to about \$10,000 was caused and a woman and her child rescued with difficulty when fire practically wrecked the post office building here. Twenty postal clerks and mail carriers escaped from the building but returned and managed to remove the mail to safety. Mrs. Gerrie, wife of the caretaker, and her infant child, were taken from the smoke filled building by firemen.

An explosion, believed to have occurred in the furnaces and blowing out all the windows and doing damage to nearby buildings, started the fire.

The force of the blast broke windows in buildings nearby and one man was hurled through a doorway into the street but was not injured.

Dense clouds of smoke that filled the building prevented firemen from entering.

Is Minister Of Railways

Geo. Spence, Maple Creek, Accepts Portfolio In Saskatchewan Government

Regina.—Appointment of George Spence, member of the House of Commons for Maple Creek, as minister of railways in the Saskatchewan government was announced by Hon. S. J. Latta, acting premier.

A reorganization of the Saskatchewan government, in which the portfolios held by all the ministers, except those of Hon. Dr. J. M. Ulrich, minister of public health; Hon. C. M. Hamilton, minister of agriculture, and George Spence, minister of railways, will be affected, is foreshadowed.

"It is considered important that George Spence, who has always shown a marked interest in and aptitude for railway development in the newer districts of the province, should be given an opportunity to serve in this department," said Mr. Latta in making the announcement.

Says Debt Reduction Essential For Canada

In Order To Retain Position In World Markets Declares Robb

Ottawa.—"It was essential for Canada to reduce her debt to maintain her position in the markets of the world," Hon. J. A. Robb told the provincial premiers conference here following the submission for increased subsidies. The minister of finance emphasized the tremendous obligation growing out of the war and the maturities which the Dominion was compelled to meet from time to time.

Hon. Mr. Robb promised nothing beyond what parliament would see fit to do in the matter of increased subsidies.

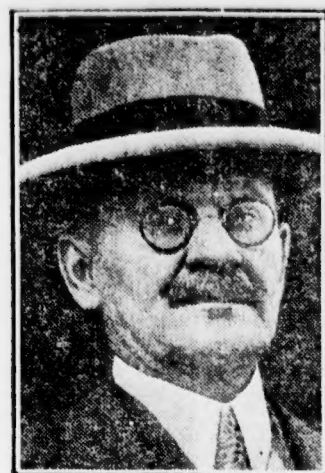

May Bar Further Excavation

Cairo.—Germans may be refused further permission to make excavations here in view of the dispute over the bust of Queen Nefertiti, which the Berlin Museum insists on holding. The Egyptian antiquities department demands that it be returned to Egypt.

Airships being constructed in England are expected to carry passengers to Canada or Egypt in two and one-half days, to South Africa in six and one-half days, and to Australia in twelve and one-half days.

In all France there are less than 12,000,000 families.

Was Lone Representative

Dr. W. A. Shauls, of Winnipeg, president of the International Association of Dairy and Milk Inspectors, was the only Canadian present when the Association met in Toronto, Ont. A resolution of regret at Canadians remaining aloof was passed.

Receives Application For Steamship Service

Federal Government Gets Offer On Line To Fort Churchill

Winnipeg.—The following special despatch from Ottawa is given prominence by a Winnipeg paper.

"The Federal Government has been invited to enter into an agreement with a steamship company with offices in Great Britain and Montreal whereby the company will put on a regular steamship service from Fort Churchill to England and the continent in return for a concession of crown lands in the Fort Churchill area.

"Rumors of this application had been current in the capital for several days and confirmation was obtained from Hon. W. R. Motherwell.

"The company is the Gaspe Steamship Company, Ltd., of London, Eng., and Montreal."

Would Make Ocean Flight

Crippled Aviator Is Fearless and Competent Pilot

Wheeling, W. Va.—Wheeling, the city that sent Ruth Elder forth in an attempt to conquer the Atlantic ocean by air, now has another aspirant for trans-Atlantic honors—an aviator with no legs and but one arm. The crippled birdman is Morris R. Daugherty, 35, of New Martinsville, near here. He has been flying for a year and is known as a fearless and competent pilot. Now he is ready to attempt an ocean flight.

League Session In December

Geneva.—The quarterly session of the League of Nations Council has been officially convoked for December 5. One of the most important questions to come up is the appeal of Lithuania against Poland, alleging the mistreatment and arrest of clergy in the Vilna District and the removal of the schooling rights of Lithuanian children, which is declared to be threatening peaceful relations between the two countries.

U.S. Shy On Half Dollars

Washington.—Nearly 600,000 50-cent pieces were coined last month in the mints at Philadelphia, Denver and San Francisco, and the demand is still running ahead of the supply. Officials have been unable to account for the sudden demand, except that no half dollars were made from 1924 to 1926.

Canadian Airmen Dive Into River

Fliers Deceived By Reflection Of Lead Sky On Water

Fredericton, N.B.—Deceived by the reflection of a leaden sky on the smooth surface of the St. John River, a Canadian air craft dove straight in to the river here. In the plane were Flight Lieutenant C. N. Harrop, pilot of the machine; Corporal Winship, mechanic, and C. Donnelly, photographer. All are from Dartmouth, N.S., air station.

Canoes, rowboats and power craft dashed from both banks of the river as soon as the crash occurred as the plane had circled several times before planing for the surface of the river. The three aviators were all clinging to the wreck, the plane having broken up after striking the water.

The airmen were cut about the face and much bruised and suffering from shock and exposure.

Want 10,000 Horses

Russia Ready To Place Big Order For Canadian Hags Next Year

Quebec.—Transportation of 10,000 Canadian light draught horses from Quebec to Leningrad, Russia, is the goal that has been set by the Soviet Government for the 1928 season of navigation. It was learned here. With the departure from Quebec about November 16 of the Russian steamer Dekabrist with 850 horses, a total of 3,000 of the animals will have been shipped through this port this year, and in order to carry the considerably larger figure aimed at for next season, the Soviet Government will charter another steamer in addition to the Dominion.

Federal By-Election

Polling Day At Maple Creek Constituency Fixed For Dec. 9

Ottawa.—A federal by-election is impending in the constituency of Maple Creek, Sask., consequent upon the resignation of George Spence, Liberal M.P., who has become Minister of Railways in the Saskatchewan Government.

Writes for the election six November 25 as nomination day and December 9 as polling day.

This is the first by-election since the Conservative Party's convention in Winnipeg and the choice of Hon. R. B. Bennett, K.C., as leader.

Winter Air Mail Proposed

Would Serve Remote Posts Which Are Practically Isolated

Ottawa.—A representative of the Canadian Transcontinental Airways Limited, is in Ottawa to confer with the officials of the Canadian Air Board in the matter of transporting mail to Seven Islands, Anticosti, and the Magdalen Islands during the closed winter season of navigation. The contract for this new service has already been awarded.

Hitherto these remote posts have been practically isolated, delivery of mails being entirely dependent on dog teams during the winter.

Big Ranch Deal

Calgary.—One of the largest deals in the history of Alberta ranch property—involving more than \$750,000—was put through here, when the George Lane Company sanctioned the sale of the Bar U and Willow Creek ranches together with all livestock and equipment to the P. Burns Company.

BALDWIN IS QUITE OPTIMISTIC ABOUT EUROPE

London.—Fulfilling the traditional role of principal speaker at the Guild hall, where once a year the big business men of the ancient city of London get a review of governmental affairs straight from Downing Street, Premier Stanley Baldwin declared himself an optimist about Europe, because he is a realist.

"Great Britain, France, Germany and Italy, protagonists in the struggles of the day," he said, "now meet as equals and partners to advance the cause of peace, and they look forward to the convalescence of our common civilization."

Mr. Baldwin paid graceful tribute to Aristide Briand, the French Foreign Minister, and Gustav Stresemann, the German Foreign Minister, as far-seeing leaders who rendered a rapprochement possible.

"All Europe honors them and renders them tribute," he added. "All Europe asks where next will a statesman be found with the courage of Stresemann, the broad humanity of Briand, what country in the Balkans, in Central or Eastern Europe, will first follow their example and earn like fame."

The Prime Minister wished he could speak equally hopefully about Russia. There were circumstances which led Great Britain to cease diplomatic relations with Russia, he said. There were similar circumstances which prevented the United States from ever admitting of such relations.

"Whenever the Russians are prepared to observe the ordinary decencies of international intercourse and abstain from interference in our domestic affairs and from a policy of intrigue and hostility," he continued, "they shall find us ready to meet them in the spirit of liberality and good will which inspires our whole foreign policy."

Would Eschew Politics

United Farmers Of Ontario Will Discuss Resolution On This Question

Toronto.—A resolution calling for the abolition of the political committee and the elimination from the official statement of aims of the organization of all reference to political activity will be placed before the United Farmers of Ontario when they meet in their annual convention in this city December 7 and 8. The resolution if passed would remove the last hint of a political complexion from the organization.

The same resolution asks the association to condemn the use of the title U.F.O. by any members of the provincial or Dominion Parliament, or any candidate for either House.

A resolution asks that a study of co-operative marketing be placed on the curriculum of rural schools.

Making Effort To Have Sentence Changed

Counsel In Nelson Case Appealing To Department Of Justice

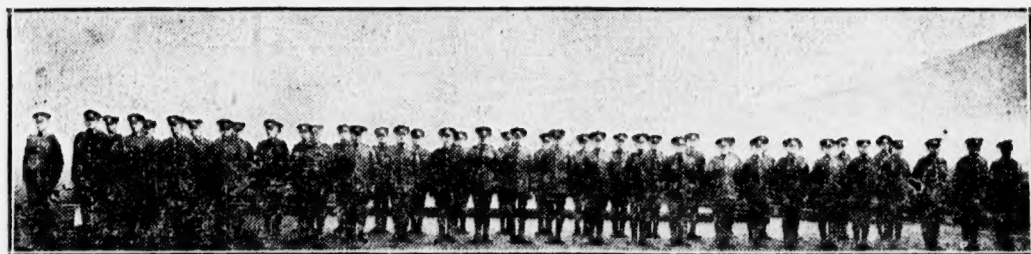

Winnipeg.—Counsel for Earl Nelson, found guilty of the murder of Mrs. Emily Patterson, are preparing to make representations to the Department of Justice for the remission of the death sentence. Nelson was sentenced to be hanged January 13.

The plea of insanity which the defence offered at the trial will be the basis for the representations to be made to the executive authorities. The evidence given by defence witnesses, together with records from Napa State Asylum, California, will be forwarded to Ottawa.

They will be supplemented by X-ray plates photographs of Nelson's head. The plates were ordered chiefly for the vestigial purposes and were not offered in evidence at Nelson's trial.

Are Seeking Settlement

Toronto.—T. G. Clarkson, who is one of the liquidators of the Home Bank of Canada, has confirmed that discussions are now going on with a view to settlement of the five million dollar suit brought by the liquidators against the directors of the defunct institution.

Canadian Guard at Washington Unveiling

The Canadian Guard of honor at the unveiling in Washington of the Canadian monument to Americans who fell while serving in Canadian units, which was dedicated on Armistice day, was drawn from the famous Royal 22nd Regiment of Quebec City. They are shown photographed at the Canadian Pacific station in Montreal enroute to Toronto recently before joining other Canadian units and proceeding to Washington. The "Cross of Sacrifice" was erected in the Arlington National Cemetery by the Canadian Government. The unveiling ceremonies were of an international nature, troops and dignitaries from Canada and the United States taking part, the monument being unveiled by the Hon. Vincent Massey, Canadian Ambassador at Washington.

Canada's Indian Population Now Mostly Self-Supporting And Is No Longer a Liability

A widespread belief that the Indian population of Canada is decreasing is an error, as there are 104,894 in the Dominion and official records show little variation from decade to decade. Incidentally the total number of Eskimos in Canada is 6,702.

Although there are no millionaires among the "redskins," the Federal Department of Indian Affairs here holds \$13,500,000 in trust for them. This huge sum is derived from the sale of lands, timber and other sources.

Tom Longboat, the famous copper-colored marathon runner, Dr. Oronhyatekha, founder of the Independent Order of Foresters, and Pauline Johnson, Canada's late beloved Indian poetess, were probably the most famous descendants of the first inhabitants of Canada.

While these three were outstanding in their particular fields, it remained for 1,000 young braves to bring further glory to their tribes while serving in France with the Canadian Corps.

A majority of the Indians of Canada are Christians, although there are 6,146 who cling to their aboriginal beliefs. Religiously they divide as follows: Anglicans, 23,557; Baptists, 1,173; Methodists, 13,930; Presbyterians, 2,375; Catholics, 48,671; and other Christian beliefs, 1,227.

The Indian is very law-abiding, except when he gets a "skinfur" of "fire-water," which has the effect of restoring him to the primitive. Incidentally, it is a breach of the law for an Indian to have liquor, and persons selling it to him are heavily punished.

The Indians of Canada are self-supporting. The young brave today is abandoning hunting and fishing for agriculture through the efforts of the Department of Indian Affairs in its educational program.

Canada's Indians realized nearly \$2,000,000 last year from farm produce. The hunters and trappers realized \$2,215,962, while those who worked on wages earned \$2,415,979. Only in the northern and outlying districts of the Dominion is the brave depending on hunting and fishing for his livelihood.

The ancient tribal customs of the Redskin are slowly passing out. Western Indians still enjoy their own dances, but any dance which entails mutilation of bodies, or the giving away of presents, is strictly forbidden and stamped out.

War paint, tomahawks and the old time regalia of the brave appears on state occasions, when a Royal Prince or Governor-General is made an honorary chief of a tribe or when a distinguished visitor is the guest of the tribe.

While tuberculosis still continues to be the chief menace to the health of the Indians of Canada, the population has not decreased in large numbers, due perhaps to the large families. The survival of the fittest was long the law of the Redskin, but today the squaw is learning to go to a hospital when a papoose is coming.

The Indian's holdings on reserve is exempt from seizure for debt. When it comes to elections a brave has the right to cast his ballot in the eastern provinces. In the west the brave can acquire citizenship—thus he ceases to be an Indian and is no longer protected or restricted. Education among the Indians is on the increase as the total enrollment at 247 Indian schools is more than 10,000.

Above all, the Indian is not a liability to Canada, and it is predicted will more than take his place in his native land.

Health Education Pays

Constant education in matters of hygiene and sanitation, along with the increasing advance of medical science, has almost completely wiped out of our civilization the plagues which devastated cities and villages in olden times. Likewise, by careful living and preventative measures, we are building up greater individual resistance to disease.

Wife: "Every time you see a pretty girl, you forget you're married."

Hubb: "You're wrong, m'dear. Nothing brings home the fact more forcibly."

Of Interest To Canadians

Dictionary of National Biography Contains That Of Sir Wilfrid Laurier

That monumental classic, the dictionary biography, upon the founding of which the noted publisher George Smith expended his whole life and fortune, was enriched recently by a 600-page supplementary volume embracing the years 1912-21.

Among the biographies of special interest to Canadians is that of Sir Wilfrid Laurier.

Next in importance perhaps comes the sketch of Lord Strathcona, written by Prof. Wrong's son, Edward Murray Wrong, vice-president of Magdalen College, Oxford University.

Prof. W. L. Grant, principal of Upper Canada College, is responsible for the biography of Sir Charles Tupper in the dictionary. He produces a compressed but easy recital in which he describes Sir Charles, one of the Fathers of Confederation, as "perhaps the most fearless and constructive statesman whom Canada has produced."

Prof. Grant has also written about General Sir Sam Hughes, whom he handles judiciously. After noting Sir Sam's fine energy at the opening of the war, he remarks:

"He was responsible for arming the Canadian forces with the Ross rifle, which afterwards was replaced by the Lee-Enfield rifle. He was of splendid energy, had much personal charm, but was too undisciplined and impetuous to be an easy colleague, either political or military."

Had No Airport Facilities

And People Of Ottawa Missed Seeing U.S. Dirigible

The flight of the United States airship Los Angeles from Lakehurst, N. J., to Ottawa, with Sir Phillip Sasson, British Secretary of State for Air, on board, was abandoned, because the Canadian capital lacks suitable airport facilities. Thus the people of Ottawa missed the opportunity of seeing aloft a great dirigible, similar in type to the two now being built in Great Britain. Certainly the Los Angeles, moving steadily through the air at an apparently slow speed, with the sun shining on its torpedo-shaped metal hull, must be an impressive spectacle.

Dairy Factories In Canada

A report recently issued by the Canadian Government Bureau of Statistics shows that in 1925 there were 3,074 dairy factories in Canada, an increase over the preceding year of 62 and an increase over the year 1924 of 111. Of the 3,074 factories in operation last year, 1,287 were creameries; 1,411 cheese factories; 256 combined butter and cheese factories and 26 condenseries.

Miss Margaret Irving, the only woman tea-taster in Great Britain, tastes three hundred samples of tea every day.

Indications Point To Belief That Hudson Straits Are Open To Navigation Longer Than Expected

Many Losses From Hail

Prairie Provinces Visited By Severe Storms This Year

Losses from hail in the Prairie Provinces are heavier this year than in any year since 1921 according to figures furnished by the secretary of the Canadian Hail Underwriters' Association. The heaviest storms were on July 9th, July 20th, August 5th, 13th, and 15th. Between June 13th and September 14, there were only two days (July 2nd and July 5th), when hail did not fall somewhere in the prairie provinces. In Saskatchewan premiums amounted to about \$3,500,000 while losses totalled approximately \$2,600,000, an increase of more than \$1,000,000 being received in premiums by the 52 companies operating in the province. Of the 52 companies, 23 lost money on the year's operations, while 12 broke about even, and the balance made a small margin of profit.

Only five of the 51 companies operating in Alberta made a profit while three broke about even on the year's business, the rest losing money, no added. Premiums in Alberta totalled \$2,600,000, against which the losses aggregated approximately \$4,100,000.

Manitoba's experience was favorable, premiums totalling \$470,000 and losses about \$175,000, said Mr. Campkin. Two companies received no claims for hail losses. One company had losses amounting to 87.06 per cent. of its premium income.

A Quaker Poet's Ruse

Whittier Had Clever Way To Outwit Sightseers

Like Tennyson, John Greenleaf Whittier, America's Quaker poet, had an equally keen distaste for mere sightseers. Once two women, searching in Amesbury for his house, stepped into a grocery store to inquire their way. The shop assistant, with an odd smile, directed them; but one, who had noticed the smile, asked if he thought the poet would see them, adding in a gushing manner, with clasped hands, "He simply must! We won't go away till he does. There are ever so many things we want to ask him." The assistant glanced towards a shadowy corner, where a number of customers, all men, were gathered, village fashion, round a tall figure, seated on a barrel. They had all been talking politics, but had ceased at the woman's question. "Think he will see them?" asked the assistant. "Well," replied the man on the barrel, "he knows Greenleaf does not find it easy to refuse a lady. I think perhaps he will—if he is at home." But when the too effusive woman called, needless to say "Greenleaf" was not at home. He was still contentedly sitting on the barrel, talking politics.

The opening week of November finds the Hudson Straits without a vestige of ice in sight, and with a minimum fog, says an Ottawa report, dated Nov. 7. Each day the marine experts of the department of marine and fisheries, at Ottawa, are more astounded as the radio reports from the fliers who are patrolling the 450 mile stretch of the straits in airplanes every day declare that there is, as yet, no obstacle whatever to navigation.

"It is really very remarkable," said one of them, "and we are very much puzzled. It begins to look as if the straits are open to navigation many weeks longer than anyone suspected. It may be, indeed, that the ice does not enter the straits until February. The flow ice usually starts drifting south in that month. Of course, we cannot be sure. All our preconceived ideas about the straits have been disturbed."

This official pointed out that the fact that there is as yet no ice in the straits indicates that in 1927, at any rate, navigation will be open much longer than in the St. Lawrence River, where the last ship clears about November 15. The straits are from 40 to 100 miles in width and it is inconceivable that if ice commenced to appear now, it could block the channel in two weeks, or even a month.

The absence of fog, too, is a great surprise to other officials. Fogs always occur at this time of year on the St. Lawrence. In the last ten days several ships have cleared from Montreal and made the entire trip to the Atlantic ocean without being able to see farther than a ship's length in any direction. These ships navigated by radio direction and avoided collisions by using their sirens. This feat so pleases the officials that in all probability an official statement will be issued.

Would Hard Times Affect Automobiles

Difficult Now For People To Get Along Without It

The extent to which the automobile, in its double function of utility and luxury, has affected America socially, economically and industrially is amazing. If one regards it from almost any point of view. So rapid has been the change that the community has by no means been able to adjust itself to it. It will be years before the highways are reconstructed to meet conditions and they never can be made fully to meet them. As for the effect on retail business, not even yet has the trend become clear. Socially, of course, as in recreation, the effect of the automobile has been profound, but on the whole American life in many phases is still in a transition period. Not the least interesting subject, in case the country should have a severe dose of hard times, would be the effect on the automobile.

Lesson Was Hard

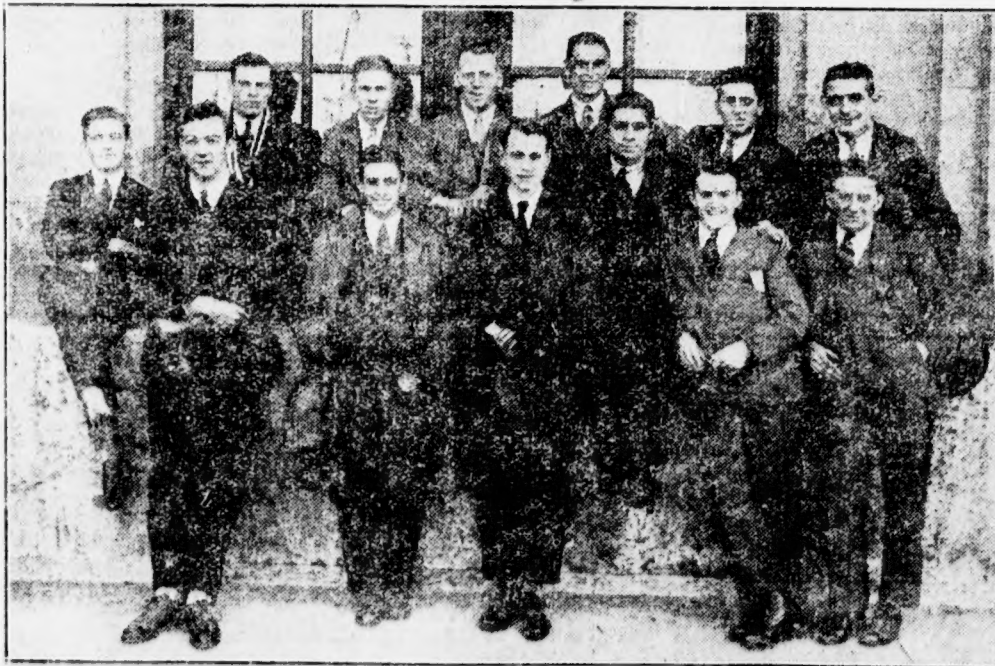

The world was a long while learning the way to play the game together, but the great mass of humanity had little property, little leisure and hardly any liberty until the method of co-operation was adopted. There is a lot of injustice and wrong left in the world still, but that exists merely where the ideals of the system have not been observed.—Detroit News.

Half the garage equipment in Lublin is from the United States.

"Why have they arrested him?"
"Because he left the inn so late."
"And they arrested him for that?"
"No. They are simply taking him into safe custody to prevent his wife battering him!"—Musketeer, Vienna.

PLEASED TO MEET YOU!

"Pleased to meet you!" really meant something when Canada welcomed these young Englishmen to her broad acres. A fine group of potential farmers never landed here. They were photographed outside the Canadian National Railways station at Winnipeg, where they broke their journey to Vermillion, Alberta. The young men will study Canadian farming methods at the Alberta Government's agricultural farm at Vermillion, and when they get farms of their own they will be fully qualified to handle them. They are between sixteen and twenty years of age and some from all parts of England, most of them from farming stock.—Canadian National Railways Photograph.

CHAPTER XI.—Continued

The spirit of Helmi's hard-working, soap-making, dirt-hating grandmothers stirred at the sight before her. Her long, capable hands craved a chance to show what they could do with the travel-stained, tear-wet, much begrimed-family before her, mother and all. The mother was at a low ebb—skirt crooked, belt wholly inadequate to cover the connection between skirt and blouse, hair in strands, hair net dragging from one hairpin, shoe-lace untied, stockings sagging; her shoulders drooped, and her voice wobbled.

"Let me have him," said Helmi, reaching out for the five-year-old, "I will wash." The family stopped all its activities; arrow-root biscuits were discarded; the seven-year-old, who was riding the back of a seat shouting "Ride 'em, Cowboy!" paused open-mouthed; Maudie in surprise relinquished the nut-bar, at least as much of it as would leave her hand. "I have a little wash-room of my own. There I will take him please," said Helmi. Charlie went with her without a word while the family looked on in dumb amazement. "Ma, ain't that the limit," whispered Maudie in wonder, "I thought she was a lady."

Charlie came back in due course shining from applications of soap and water. His garters were mended, his hair brushed, his ears pink as coral and shining inside and out. His clothes were straightened and brushed, and he smelled foreignly of toilet water and powder. He held a new five-cent piece in his hand, and his spirit was subdued and serene. The others were taken one by one, renovated and return-

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. JOHNSON, 49 Moore Street, St. Thomas, Ont. C

Few Instances Recorded

Hypnotism Used Instead Of Anesthetic In Surgical Operation

Hypnotism has been used in place of anesthetic during a major surgical operation at St. Luke's Hospital Chicago. The operation, performed on a young woman, was for the removal of adhesions in the abdomen and was reported a success. She was under hypnotic control more than an hour.

While the case was under the direction of Dr. Alfred P. Solomon, of the Neurological Service, St. Luke's, the surgeon was Dr. Harold O. Jones, also a member of the hospital staff. Dr. Solomon hypnotized the woman. A member of St. Luke's confirmed the report of the operation, but declined to give details, asserting its chief importance was scientific and that reviews would be prepared for medical journals and associations.

Medical authorities said the reported usage of hypnotism in surgery has prevailed for almost 75 years but that instances have been few.

Aluminum, the modern metal, has uses almost without number, a chief one being as a container for good tea, the best of all packages. All Red Rose Tea is now packed in Aluminum and we have so much faith in both the tea and the package that your money will be refunded if you are not completely satisfied.

fully unconscious of the fact that a picture of her was in the evening paper and a short summary of her career as told to an eager young reporter by Mrs. Wymuth. It said among other things that she was a girl of violent temper who had given much trouble to the Home authorities.

CHAPTER XII.

When the train slowed its pace above the Eagle Mines, Helmi looked down on a valley which lay like a shallow saucer, broken jaggedly but fairly down the middle by the river, which ran jade green and foaming to the plains beyond. The rim of the saucer was fluted by short lines of young evergreens running down toward the centre. The mines, three of them, looked like badger-holes of giant size, and were marked by long mounds of slag.

To the west rose the mountains, green at the foot where the forests grew, gravelly and bare above the timber-line, rising still higher into hard gray rock, scamed across like faded carpet, and at the very top an icing of snow which had run down the crevices as if it had been put on too soft by unskilled hands. The two great peaks stood staring at each other across the stream, seeming to dominate the whole landscape; and when the train stopped and the conductor called "Eagle Mines," Helmi could see nothing but the two giants towering high above her.

"I suppose, now, you think those two big gents are right near, don't you," said the conductor as he carried her valise down on the steps.

Helmi admitted that she did.

"Well, don't count on goin' over there before breakfast, for they're twenty miles away. Walking towards mountains is a thankless business in this country—a person don't seem to be able to get much nearer. In fact, you do well if you can hold your own."

Helmi thanked him, and, taking her valise, walked across the narrow platform. Looking up the river she could see far into the mountains, for the river channel is wide and its general direction unbroken.

Around the station buildings were huddled the miner's houses, all of the

same pattern, all of new lumber and unpainted.

The bottom of the saucer, on both sides of the river, is a fertile plain of deep black loam, which in summer is covered with heavy grass and peavine, but with never a cow to eat it, for the miners are not given to domesticity. The company which owns the mines was seized by the desire to root their men in the soil when the first mine was opened, and to this end bought all the land in the saucer, which covers a full township of six miles square, and gave to each man who signed on for a year a tract of twenty-five acres; but so far not much success had come, for the miners when their eight hours were over had little inclination to plant or hoe. Even the mine manager, who could discourse nobly on the subject of giving the worker a stake in the country "to keep him from putting his foot through the plate-glass of civilization," had not laid a spade or hoe on his own twenty-five acres of grass, nor indeed removed the pile of clay which had been excavated for the basement of his house. When a man can earn three hundred dollars a month and has a rent-free house, it hardly seems fitting that he should spend his leisure time manuring young onions or confirming the feeble knees of spindly young cabbages.

The trouble with Eagle Mines was that no one expected to stay. A mine may give out and who knows where the seam may end? There were outcroppings, to be sure, all around the saucer, but there were foldings, and cross faultings, and in some of the seams interbedded shale, which increased the risk and therefore raised the mining cost.

(To Be Continued.)

Asthma Brings Misery, But Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor it reaches the very innermost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you know as well how this remedy would help you as do thousands of grateful users, there would be a package in your home tonight. Try it.

Setting Her Right

The new milkman was a rather bashful young man, but he was most anxious to please his clients. An elderly lady appeared at the door of a grand house which he served, and haughtily put the question, "How much is my milk bill?" The young man blushed and stammered: "Beggin' yer pardon, ma'am, but—ma name's Jim."

London now has women veterinarians.

Little Helps For This Week

"Ye know not what shall be on the morrow."—James iv. 14.

Seek not to know tomorrow's doom; That is not ours which is to come. The present moment's all our store. —Congreve.

We often distress ourselves greatly in the apprehension of misfortune which after all never happens at all. We should do our best, and wait calmly the result. We often hear of people breaking down from overwork; but in nine cases out of ten they are really suffering from worry or anxiety. —Sir John Lubbock.

Chapped Hands

Mixed with sweet oil and applied often, Minard's will heal rough and chapped skin.

The Most Generous Figure Puzzle Contest Ever Offered

378 PRIZES—and such AMAZING prizes

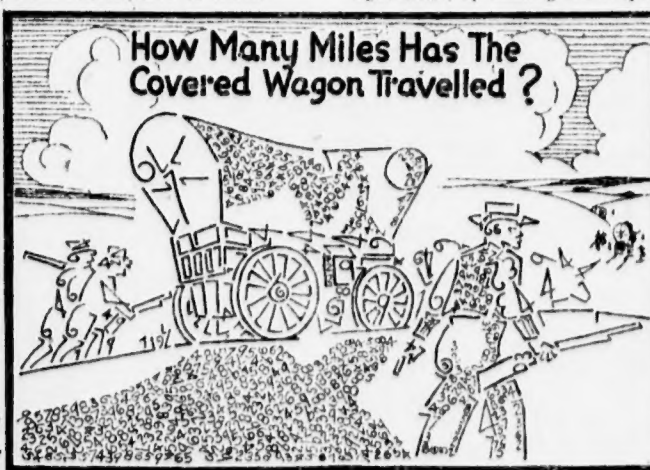

Here is the opportunity you have been hoping for, to win a luxuriously equipped automobile or a beautiful, up-to-date Aladdin Home all ready to be erected on your farm—all for just a few hours pleasant and profitable occupation in your spare time. Think of it! 378 prizes ranging in value to over \$2,400.00. You will find it a fair, clean contest, free of tricks.

If you can add figures together correctly you may win this contest. Your chance is as good as anybody's—but the early entries qualify for special prizes. So clip the coupon—mail it tonight, and get full details of rules, complete list of prizes, and larger puzzle charts to work on. Make up your mind to win—and get started right away, by mailing the coupon NOW.

The Greatest Value in Radio

Never before has so fine a set been offered for so
little money. For sure reception, selectivity, tone
quality and volume, the 57 outperforms any other set
anywhere near its price.

All the improvements found in higher priced sets
are embodied in this set including one dial control.
The new Westinghouse Radiotron UX-201-B is used
which consumes but half the filament current of other
tubes of equal power.

The 57 represents the last word in performance
and radio value. Hear a demonstration in your own
home or at our showrooms to-day.
